

myStory Designer Page Image File Downloads

myStory Designer is free software for customers of myStory to create Photo Books, Calendars, Page Prints and other products for printing with myStory... and now you can also get your pages as image files! Here's how:

Upload your Pages to the myStory Project Gallery

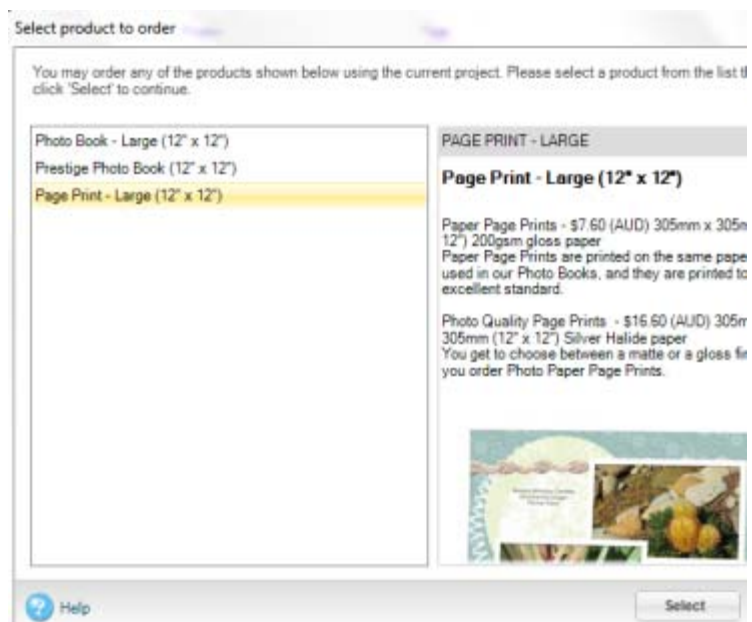

1. First you need to upload your Pages to your myStory Project Gallery.
2. Open your project and select **File, Order**.

Don't worry! You don't actually have to order a Page Print to get the image file, but you do need to go through the steps to upload it.

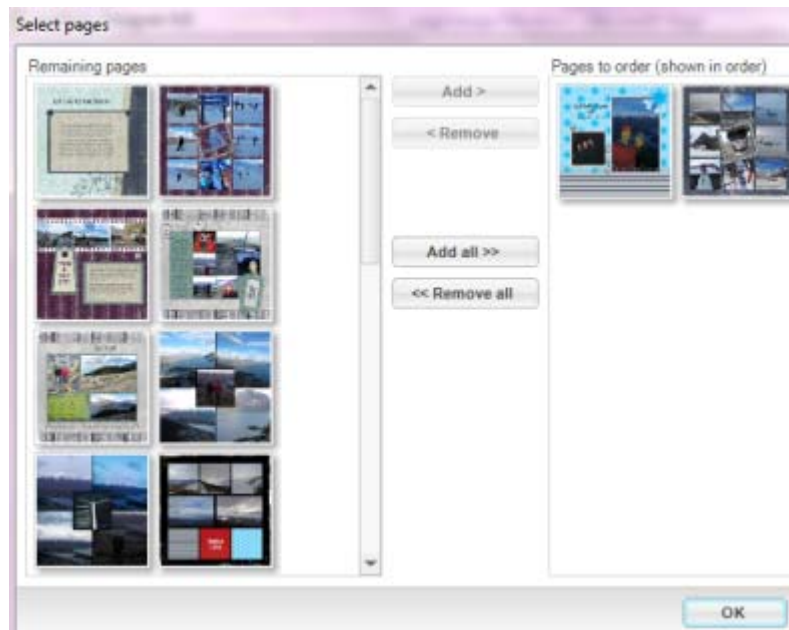

3. If you are uploading pages from a book project, just select **Page Prints** in the 'Select product to order' window.

You don't actually have to order a Page Print to get the image file, but you need to follow the steps to upload it.

4. Select the pages you want to get as image files. Click **OK**.

5. Then be sure to check your preview, tick the declaration boxes then then click **Continue**.
This step is really only relevant to printed products however it is part of the upload process so just keep going!

- I have checked every page in this preview and I agree to have the order printed as shown.
- I understand that any element closer than ¼" to any side of a page in this project may be trimmed due to production tolerances.
- I understand that if my monitor is not properly calibrated that the colors on the printed material may not match exactly what I see on my monitor.
- I have read and agree to the terms of MyStory's return policy.

6. The 'Purchase a project online' window will open. Enter your myStory log in details to start the upload.

- When the upload is complete, click the **Go to Website** button and your internet browser will open to your myStory Project Gallery.

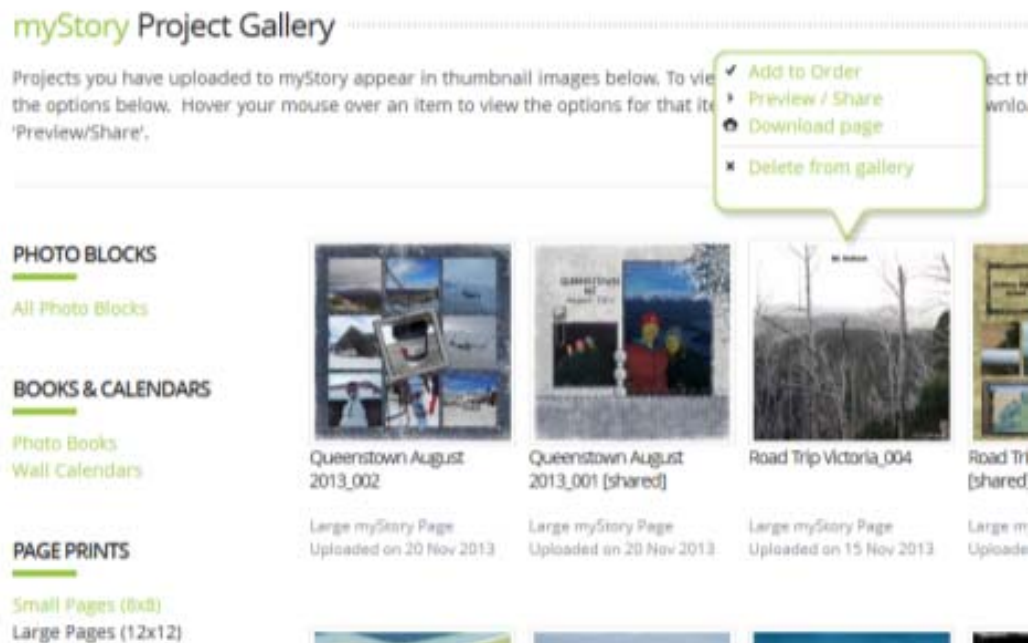

Downloading a Standard Resolution Image File

You can now download a Page Print file from your myStory Project Gallery as a standard resolution (600px x 600px) image file, in three easy steps!

- Just hover your mouse over the page you wish to download as an image file and choose **Download page** from the pop up menu.

TIP: Use the project type options on the left to filter on the page size!

- Click the **Download Standard Resolution JPG** button to download your page image!

Note: If you purchase this page as a high resolution JPG or a Print the standard resolution JPG option is obsolete.

NEW! Page Image File Download

Page Prints and Posters uploaded to your myStory Project Gallery are now available! Purchase page images in high resolution (3600px x 3600px) for only \$2 each!

You haven't yet purchased this page as a print.

[Purchase High Resolution JPG](#)

You may download a standard resolution (suitable for displaying on websites, Facebook printer for reviewing). This file size is not suitable for printing.

3. Your page will open as an image in your internet browser. Simply right click on the image and select **Save Image as...** to download and save the image file.

Note: Different internet browsers may use varying terminology such as

Purchase a high resolution JPEG

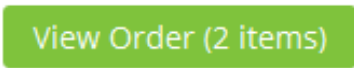

There may be times when you want your Page Print as a high resolution (3600px x 3600 px) image file. This is now a low-cost purchase option from the myStory Project Gallery!

1. Just hover your mouse over the page you wish to purchase as an image file and choose **Add to order** from the pop up menu.

Note: You can add multiple pages to the JPG file order

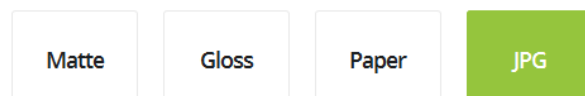

2. After you have made your selection click the View Order button

3. Select printing style **JPG**

Printing **Style**

4. Proceed through check out and payment.

Note: Be sure to confirm your order is correct BEFORE completion.

Description	Price	Qty	Total
Road Trip Victoria_004	\$2.00	1	\$2.00
<i>Page Print - Large (12x12) High Res JPEG File</i>		1	
Queenstown August 2013_001	\$2.00	1	\$2.00
<i>Page Print - Large (12x12) High Res JPEG File</i>		1	
Order Sub Total			\$4.00

5. After your order has been submitted, return to your Project Gallery, locate the page and select **Download page** from the pop up menu.
6. Click the **Download JPG** button to download the high resolution image file. (See point 3. above for how to save the image file to your computer.)
