

How to save a book project PDF from Artisan 5

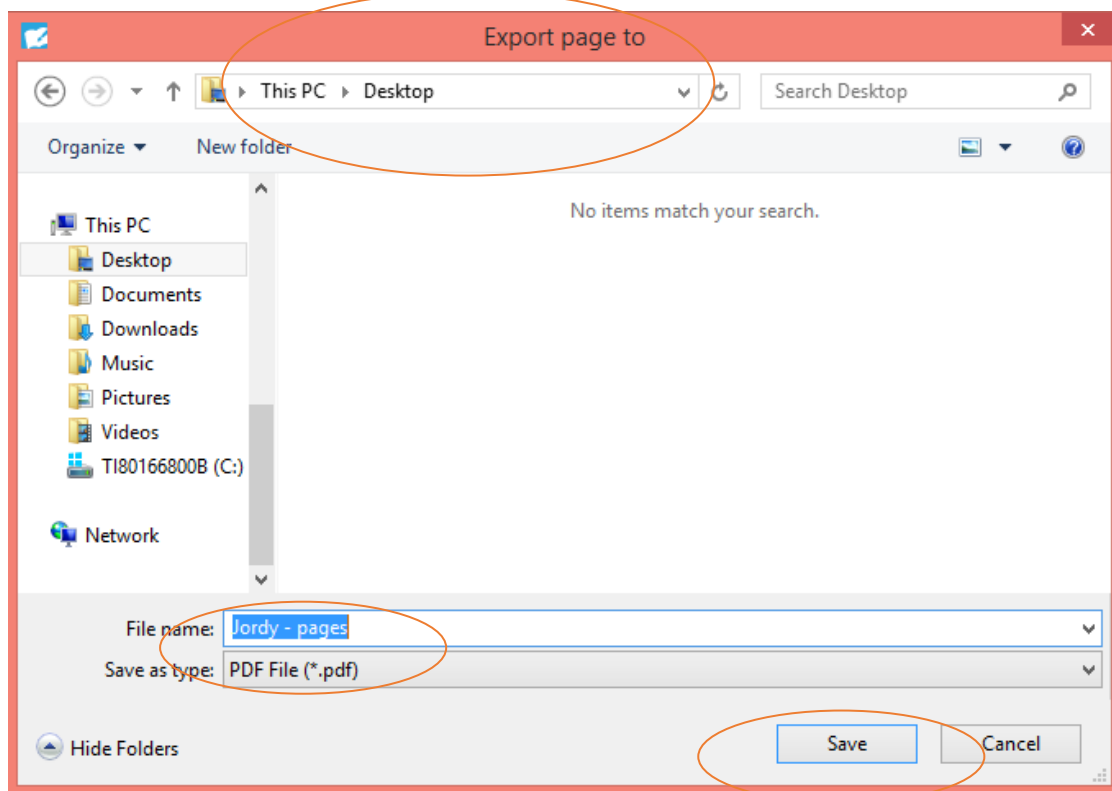

Exporting the book pages

With the book project open select, **File, Save As** from the menu

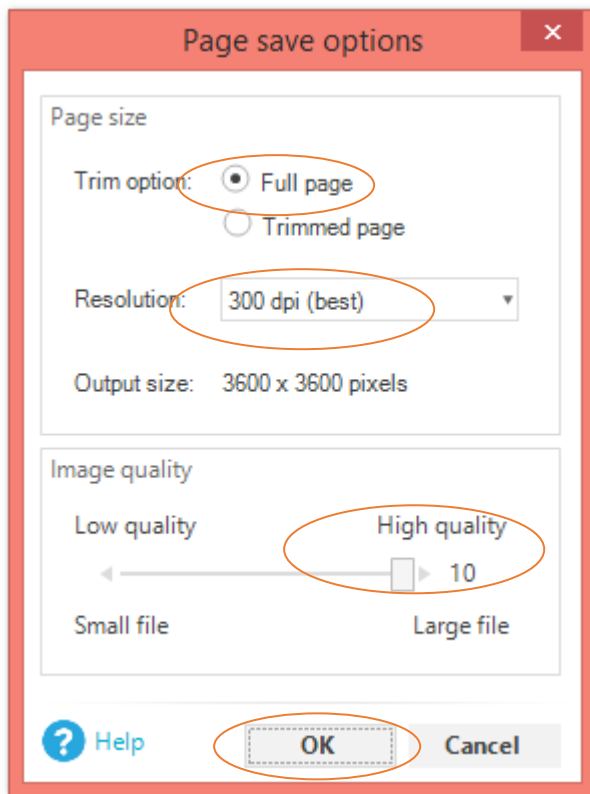

Then select **Export to PDF**. Ensure that **All xx pages** is selected and click **Export**.

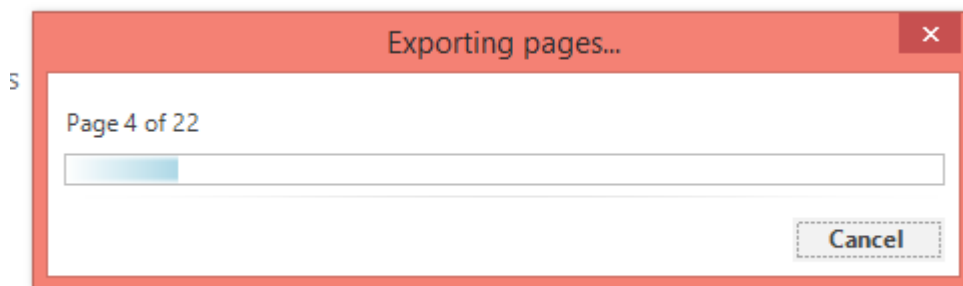

Enter **{project name} - pages** in the file name field (see example in image below). Save the file to your Desktop. This just make it easy to locate ready to upload.

Ensure the options **Full page**, **300dpi (best)** and **High quality** are set as below and click **OK**.

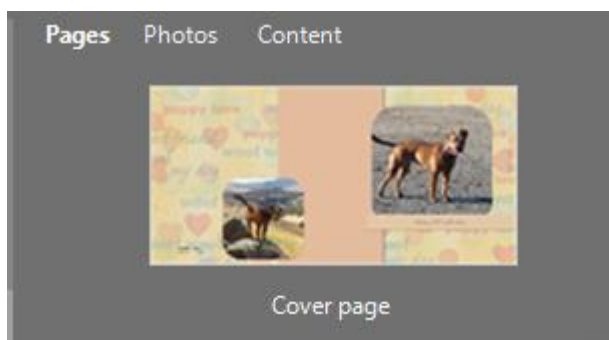

Artisan 5 will export the project pages as a PDF to your Desktop.

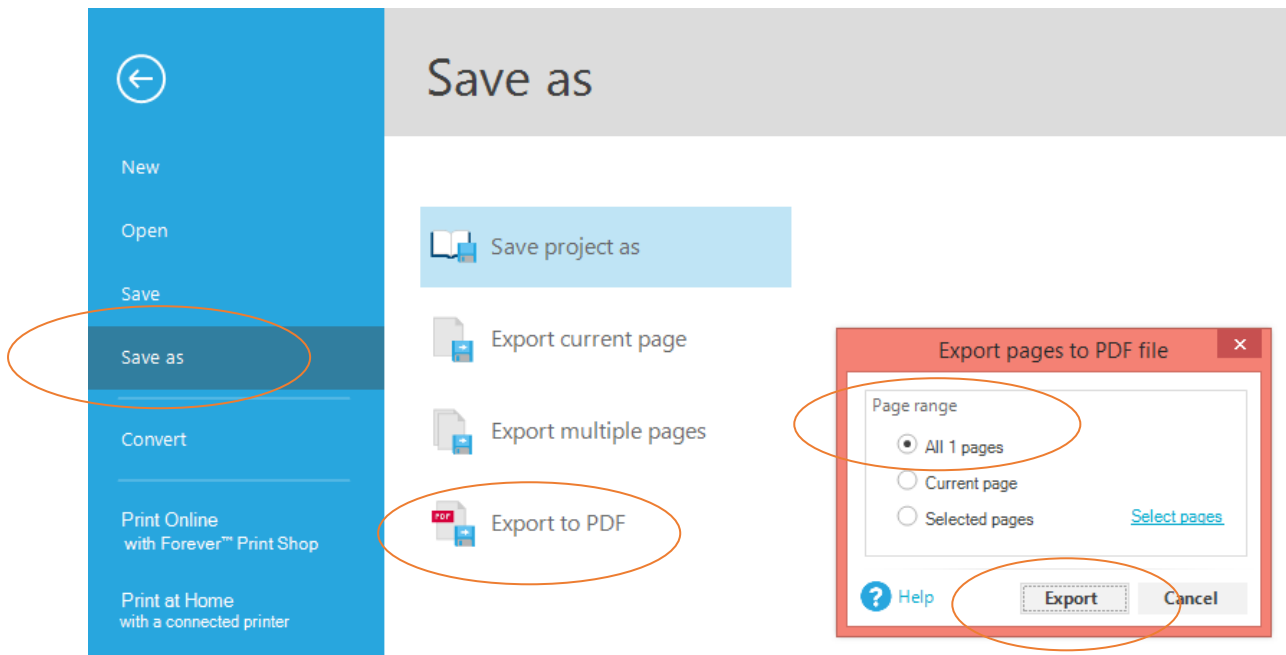

Exporting the book cover

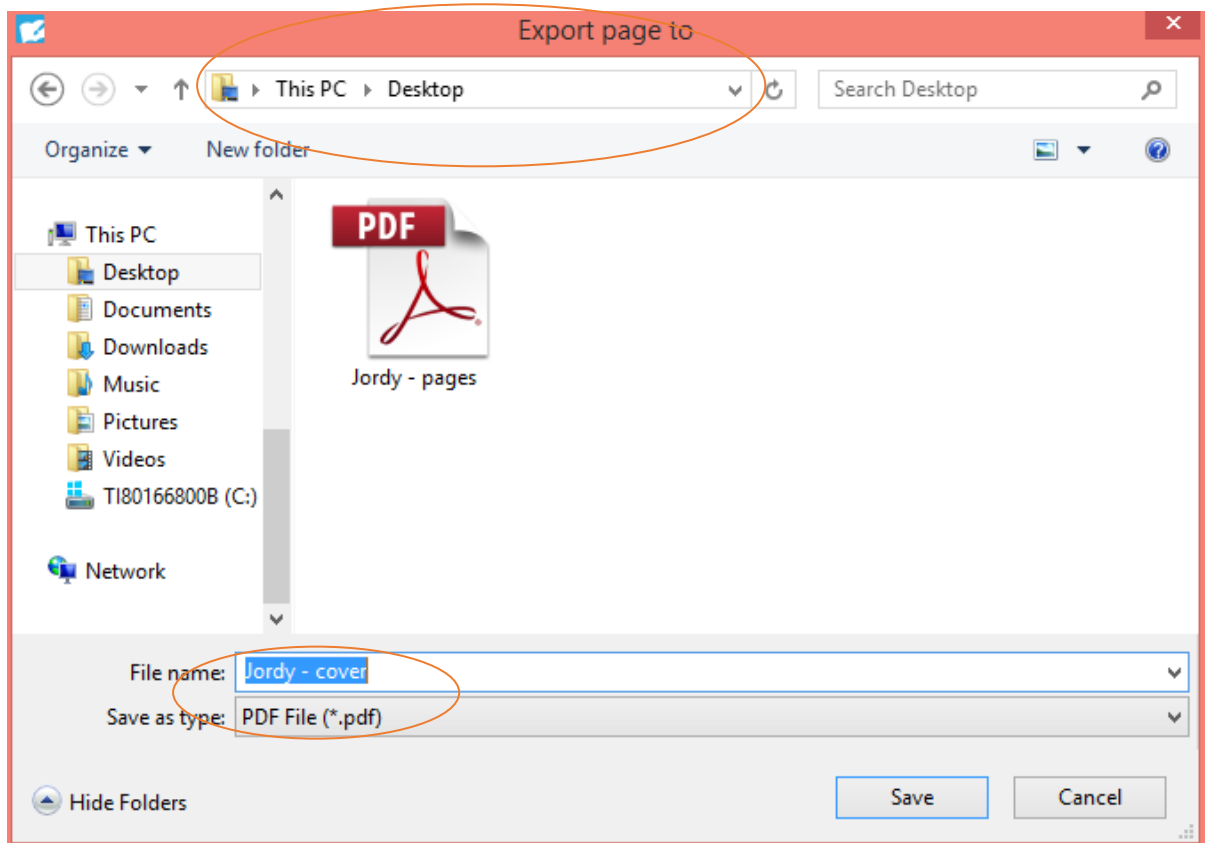

Now select the Cover page of your book from the Pages panel

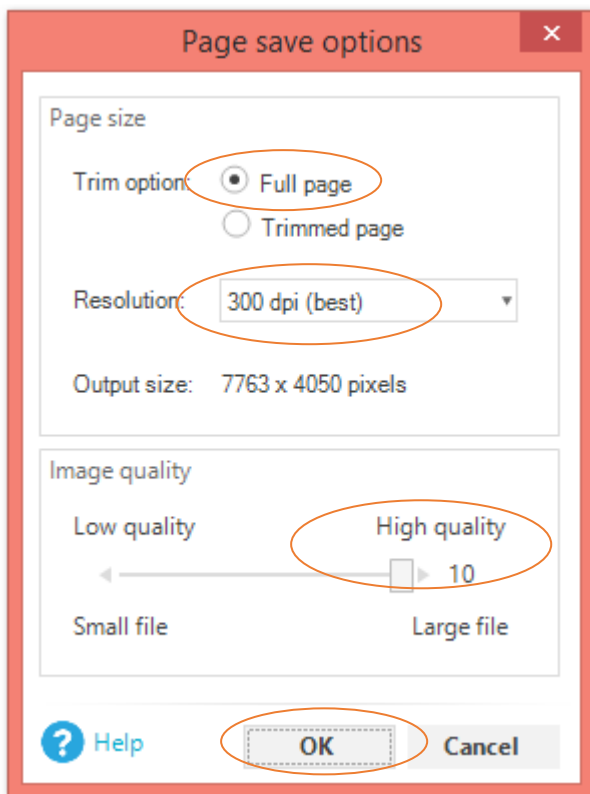

Repeat the steps **File, Save As, Export to PDF**. This time select **All 1 pages** and click **Export**.

Enter the file name **{project name} - cover** in the file name field (see example in image below). Save the file to your Desktop.

Again ensure the options **Full page**, **300dpi (best)** and **High quality** are set as below and click **OK**.

You should then see the two files on your Desktop ready to be uploaded.
